 PRODUCTS

Description

Chesterton® 099 Glass Cleaner is a high quality, heavy duty formula specially designed to remove the tough grit and pollutants that accumulate in commercial and industrial environments without leaving behind the streaks, residue and cloudy film typical of most retail glass cleaners.

The product thoroughly cleans glass with just a spray and wipe of a cloth. Its superior cleaning ability makes it equally effective on ceramic, porcelain, metal and painted surfaces. The cleaner brightens and polishes as it cleans quickly and dries rapidly. Chesterton 099 Glass Cleaner leaves virtually no residue, eliminating the attraction of dirt.

Chesterton 099 Glass Cleaner cuts through dirt, greasy soot and other industrial soils as well as film, haze, smudges and water stains. It is used universally on windows, window frames and sills, ceramic tiles, fixtures, crystal and porcelain in commercial, industrial and marine environments.

Typical Physical Properties

Appearance	Transparent blue liquid
Flash Point	None
Density	0,9 kg/l (7.9 lbs/gal)
Specific Gravity	.9
Odor	Mild

Composition

Chesterton 099 Glass Cleaner is a versatile product formulated with several powerful, water soluble grease cutting solvents. The concentrated formula is designed to provide the streak free cleanliness desired on windows, mirrors, glass doors and any fixtures where aesthetic appeal is critical.

Unlike many glass cleaners on the market, the product is strong enough to go beyond the simple cleaning of windows to the removal of the grease and grime found on most any hard surface. The special formula prevents the static attraction of dirt and dust.

The blend of water soluble solvents in 099 Glass Cleaner dries quickly and surfaces are left with a brightened, polished appearance.

Use Chesterton 099 Glass Cleaner when superior soil removal coupled with sparkle are needed in any industrial or institutional setting.

Applications

Ideal for cleaning computer monitors, television screens etc. where an absolutely clear surface is required. Use in offices, manufacturing facilities and commercial buildings for cleaning windows and adjoining frames, sills, ceramic counters, display cases, showcase mirrors, glass doors and walls, metal handles and fixtures, light fixtures, crystal. The product has also found a wide use in the marine industry for ships windows and accessories, lenses, instrumentation gauges, metal doors, handles, rails and poles.

Features

- Versatile glass and hard surface cleaner
- Leaves no streaks or film
- Fortified with ammonia
- Quick drying
- Concentrated formula cuts through tough dirt, grit, environmental pollutants
- Prevents accumulation of dust due to static

Directions

Simply spray the product on windows and most hard surfaces and wipe soils away with a clean cloth.

Safety
